

**DYNAMITE LODGE** - Are you up for the experience of your lifetime by sleeping in an abandoned iron mine 85 meters below the surface? A place to discover silence where it is easy to forget about time and space. Spend a night amongst crystal clear lakes in one of the world's most unique lodge. It's been exclusively designed with a combination of local culture and mining industry. Encountering the soul of the mineworkers, darkness and northern lights with shooting stars in the night, and perhaps with luck a visit from the spirit - lady of the mine. A night underground includes a sauna with a bath in the Aurora lake and open fire dinner. Grand opening end of 2023.

**AURORA LAKE SAUNA** - A bucket list sauna experience with a unique miner's lady's ritual, designed as a tribute to her essence. It requires an adventure to get to the site, at the depth of 85m and an hour's trek through the mountain. Join us on a guided sauna experience with its mystery and knowledge that will make you forget time and space. Your senses will travel from heat to cool, from soft to hard and from darkness to light at the same time as the endorphins flow in your body. Feel the history in the walls of the mountain while wondering how you will ever be able to bathe in a normal sauna again!

**ADVENTURE TOUR** - Sweden's most unique experience with scenes from the fantasy film The Lord of the Rings. Follow us underground and explore old epic tunnels and grand halls. With experienced guides, helmet, headlamp and harness we access breathtaking halls and drifts above subterranean lakes and deep shafts. Our Via Ferrata system and ziplines can vary in difficulties but the experience is always great! We are open all year round. Welcome to a unique destination where you can explore, discover and experience a true and unique adventure.
